

Portable Skills - Zero Dependency Tools for AI Agents

This PDF was created using ps-pdf, one of 6 portable skills:

1. ps-image - Resize, convert, and extract metadata from images
2. ps-hash - Calculate and verify file checksums (MD5, SHA1, SHA256, SHA512)
3. ps-qr - Generate QR codes as PNG or ASCII art
4. ps-archive - Create and extract zip archives
5. ps-audio - Read audio metadata and extract album art
6. ps-pdf - Extract text from PDFs and create PDFs from text

All skills are:

- Pure Go binaries (no CGO)
- Zero external dependencies
- Cross-platform (Linux, macOS, Windows)
- Self-installing with embedded SKILL.md

Install with: `npm install -g portable-skills`

Then run: `ps-pdf install-skill`
